Outline of Classification

for

Canadian Government Publications

VR CANADA

Publications Branch

Department of Public Printing and Stationery

Ottawa, March 1955

### Explanatory Note

This special classification scheme was evolved for the collection of documents and papers published by, or under the authority of the Queen's Printer, Ottawa. The schedules outlined in the following pages indicate the departmental shelf arrangement of the publications held in stock by the Publications Branch of the Department of Public Printing and Stationery.

The classification is by departmental authors. The first letter of the significant word in the official designation of a department of government constitutes the first term in the classification call numbers. The second term designates the various divisions or series of publications of a department or agency and consists of numerals. The third term, or book number, provides individual call numbers for all publications in any class or category. Book numbers are assigned as follows and are shown in abbreviated form in these tables.

- (1) 0 or 1+ = publications numbered consecutively
- (2) a = year of publications (Annual reports) expressed by last two digits
- (3) c = chapter or series number appearing on publication
- (4) ps = parliament and sessions
- (5) v = volume number

The following examples of complete classification numbers illustrate the foregoing.

#### Examples:

Annual report of the Department of Agriculture for 1951-52.

Schedule number: A1-a. Catalogue number A1-52

Sheep diseases in Canada. Publication 904 of the Department of Agriculture, Production Service.

Schedule number: A63-c. Catalogue number A63-904

House of Commons Debates. 1st session, 22nd parliament, 1953-54, Volume 1.

Schedule number: X1-psv. Catalogue number X1-2211

Classification numbers for all current publications are to be found in the Monthly and Annual Catalogues of Canadian Government Publications.

## A

## AGRICULTURE

1        -a        Annual reports of the Department

21      -l+a      Annual publications or in series, except the annual reports of the Department

22      -l+        Miscellaneous

Note. - Bills of the Senate are numbered by a letter and a numeral as an exponent. Then, we have to translate the alphabet by numerals as per sample:

Ex:	A	- Z	=	0100 - 2600
	A <sup>1</sup>	- Z <sup>1</sup>	=	0101 - 2601
	A <sup>10</sup>	- Z <sup>10</sup>	=	0110 - 2610
	A <sup>18</sup>	- Z <sup>18</sup>	=	0118 - 2618

Ex: Bill L<sup>13</sup>, 1st session, 22nd parliament, 2-3  
Elizabeth II, 1953-54 = YB221-1213
